

2022 - 2023
Annual Graduate Student Progress Report
Environmental Science Graduate Program
M.S. & Ph.D.

DUE: April 10, 2023

The annual completion of this Graduate Student Progress Report is mandatory for **all graduate students** in ESGP. It is designed to serve as an opportunity for the student, advisor(s), and the Graduate Studies Committee to review the student's progress, establish a set of realistic goals for the following year, and indicate any areas of weakness that need to be addressed. The evaluation is intended to be a consultative and interactive process to assist in shaping each year's program of study to best meet the student's needs and to ensure timely progress through the program. Students and faculty advisors should discuss all issues relevant to student progress, including achieving program milestones, conference and publication activity, developing professional networks in the field, and funding plans for the coming year. While this progress report focuses on activity over the prior year and plans for the coming year, students and faculty should also consider longer-term plans, including funding in future years, completing the program, and moving on to the first job placement. **The information provided in the student report will be used by the Graduate Studies Committee to evaluate the extent to which a student is making reasonable progress and should be recommended for funding, as established in the student handbook, and to create the annual report for the program.**

INSTRUCTIONS:

- (1) Please complete this Student Progress Report **electronically** and update your CV.
- (2) Email your completed report, updated CV, advising report, and the Advisor Evaluation form to your advisor(s) at your earliest convenience.
- (3) Please meet with your advisor(s) to discuss this report and obtain their comments and signature(s) on the advisor evaluation page. **The deadline for all materials is April 10, 2023.**
- (4) After your meeting, ask your advisor(s) to send you an electronic version of the completed advisor evaluation.
- (5) At that point you will have 4 documents to submit via email to Kelly Malone at malone.381@osu.edu. Save these 4 documents using the specific naming conventions below:
